All Graduated Driver License (GDL) recipients will have the opportunity to receive free of charge a reflective “Novice Driver” magnet for placement on their vehicle for the duration of the GDL period.

The DMV believes that it is beneficial for drivers on the road to be aware of a novice driver behind the wheel.

The magnets are brightly colored and are made utilizing the industry's leading reflective sign sheeting material, Diamond Grade Cubed (DG3).

The magnets provide an additional safety tool for the states most novice drivers and their sponsors.

It is expected that when drivers notice these magnets on vehicles that they would slow down and give sufficient room to the driver displaying them.

The program is completely voluntary and no GDL holder or sponsor is mandated to utilize this program.

These magnets are available at all DMV facilities statewide.
